## **Diatreme presenting at Noosa Mining virtual conference**

Emerging mineral and silica sands developer and explorer, Diatreme Resources Limited (ASX:DRX) (“Diatreme” or the “Company”) announced today that Chief Executive Officer Neil McIntyre, will update investors on the Company’s exciting growth plans at the Noosa Mining virtual conference, this Friday 17 July 2020, at 11.20am AEST.

Mr McIntyre’s presentation will particularly outline the timing and steps to production through the current stage of environmental studies and permitting of the Company’s Galalar Silica Project in North Queensland amid solid demand for high purity silica and limited high-grade supply.

Diatreme’s presentation will be released prior to the event, with a recording of the webinar to be later made available via the conference website ([www.noosaminingvirtual.com.au](http://www.noosaminingvirtual.com.au)).

Investors can register for the webinar via the conference website (<https://www.noosaminingvirtual.com.au/>).
