

ASX ANNOUNCEMENT

20 July 2022

Diatreme presenting at Noosa Mining Conference

- Diatreme's CEO, Neil McIntyre to update investors on the Company's growth plans for its Galalar and Northern Silica Sand Projects at Noosa Mining Investor Conference, 3.30pm AEST Thursday, 21 July
- Presentation to be broadcast online – investors can RSVP to watch online or attend event in person at <https://www.noosaminingconference.com.au/>

Emerging silica sands developer and explorer, Diatreme Resources Limited (ASX:DRX) announced today that Chief Executive Officer, Neil McIntyre will update investors on the Company's exciting growth plans at the Noosa Mining Investor Conference, from 3.30pm AEST on Thursday, 21 July 2022.

Mr McIntyre's presentation will highlight the investment opportunity from the development of the Company's emerging Galalar Silica Project and Northern Silica Development in North Queensland, amid increasing demand for high-quality silica from the solar PV industry, fuelling Asia's solar energy boom.

Investors can watch the presentation online or register to attend the conference in person via the conference homepage (<https://www.noosaminingconference.com.au/>). Diatreme's presentation will also be released to the ASX.

Diatreme will be attending the three-day conference (20-22 July) and welcomes enquiries from investors at its conference booth.

Mr McIntyre commented: *"Diatreme is delighted to present at the Noosa mining conference, which has become a key event for mining companies and investors on Australia's east coast. With the clean energy boom driving increased demand for high quality silica, we look forward to providing the opportunity for investors to get the latest update on our exciting outlook."*

"This follows our recent transformational partnership with global material solutions leader, Sibelco and lodgement of Mining Lease Applications for our Northern Silica Development, as we advance our projects towards production."

About Diatreme Resources

Diatreme Resources (ASX:DRX) is an emerging Australian producer of mineral and silica sands based in Brisbane. Our key projects comprise the Galalar Silica Project and Northern Resource Project in Far North Queensland, located next to the world's biggest silica sand mine at Cape Flattery. In Western Australia's Eucla Basin, Diatreme's 'shovel-ready' Cyclone Zircon Project is considered one of a handful of major zircon-rich discoveries of the past decade.

Diatreme has an experienced Board and management, with expertise across all stages of project exploration, mine development and project financing together with strong community engagement skills.

Diatreme's silica sand resources will contribute to global decarbonisation by providing the necessary high-grade silica for use in the solar PV industry. The Company has a strong focus on ESG, working closely with Traditional Owners and all other key stakeholders to ensure the long-term sustainability of our operations, including health, safety and environmental stewardship.
